[Crack Rational Rose 2002 Dodge](#)

The screenshot shows the Sothink SWF Quicker software interface. The main workspace displays the text "Sothink SWF Quicker" in a large, stylized font. A blue text box with white text provides instructions: "Когда выставили размер полотна, кликаем на букву T- текст. Затем клик по полотну и пишем свой текст. Чтобы текст ожил, выделяем его мышкой и сверху панели нажимаем на Эффекты. В функции эффектов откроется окошко с просмотром, так что сразу будет видно как будет выглядеть ваш текст." Red arrows point from this text box to the 'T' text tool icon in the left toolbar and the 'Эффекты' menu item in the top menu bar.

At the bottom, the 'Свойства' (Properties) panel shows the canvas dimensions: Ширина: 600 and Высота: 200. A blue text box with white text says "Выставляем размер полотна для текста" (Setting the canvas size for the text), with a red arrow pointing to the 'Высота' (Height) input field.

Other visible interface elements include the menu bar (Файл, Правка, Вид, Вставить, Эффекты, Настройка, Параметры, Окно, Справка), the timeline (0 to 55 seconds), and the right-hand panels for 'Колорирование' (Coloring) and 'Библиотека' (Library).
